The applicant..... Maynard Alves

Dean Ranch, of Crescent Valley
Street and No. or P.O. Box No. City or Town

Nevada 89821, hereby make^S application for permission to appropriate the public
State and Zip Code No.

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a
copartnership or association, give names of members.)

1. The source of the proposed appropriation is..... underground (Desert Hawk stock well)
Name of stream, lake, spring, underground or other source

2. The amount of water applied for is..... 0.048 c.f.s. second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet.....

3. The water to be used for..... stock water and domestic
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated.....

(b) Stockwater, state number and kinds of animals to be watered..... 1,500 cattle

(c) Other use (describe fully under No. 12. "Remarks").....

(d) Power:

(1) Horsepower developed.....

(2) Point of return of water to stream.....

5. The water is to be diverted from its source at the following point..... within the NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 11, T.28N.,
Describe as being within a 40-acre subdivision of public

R.47E., MDM, from which the SE corner of said section bears S. 62° 50' E.,
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.

5,058 ft. dist.

6. Place of use..... NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 11, T.28N., R.47E., MDM
Describe by legal subdivision. If on unsurveyed land, it should be so stated.

7. Use will begin about..... January 1 and end about..... December 31, of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and
specifications of your diversion or storage works.)..... drilled well, casing, submersible pump,
State manner in which water is to be diverted, i.e. diversion structure, ditches and
pipeline to storage tank and stock troughs.
flumes, drilled well with pump and motor, etc.

9. Estimated cost of works \$10,000.00
10. Estimated time required to construct works two years; well was drilled in 1958, formerly used in domestic manner; hole is 6" x 212", with 6" O.D. casing set full length, perforated between 187' and 212 ft. (well log #4190 on file in D.W.R. office). If well completed, describe works.
11. Estimated time required to complete the application of water to beneficial use three years
12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use:
Please send copies of notices and correspondence to the undersigned agent.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of livestock served from the waters of this source. It is further understood that this right may allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring high water. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times but does not take responsibility for the use of the Federal range.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued under the provisions of NRS 534.120(2) as a preferred use.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.947 cubic feet per second or sufficient to water 1500 head of cattle.

Work must be prosecuted with reasonable diligence and be completed on or before November 22, 1995

Proof of completion of work shall be filed before December 22, 1995

Application of water to beneficial use shall be filed on or before November 22, 1996

Proof of the application of water to beneficial use shall be filed on or before December 22, 1996

Map in support of proof of beneficial use shall be filed on or before N/A

JAN 02 1996

Completion of work filed _____
